

日记

姓名: 饶永强

学号: 2017210218019

一、 项目需求

做一个写日记的小程序

二、 功能分析

日记需有注册登陆和读写的功能

三、 实现原理

通过 API 实现总体设计

四、 模块划分

- 1、 注册界面 Index
- 2、 登录界面 denglu
- 3、 日记界面 riji
- 4、 写日记界面 write
- 5、 读日记界面 read

五、 各模块实现过程

第一部分：注册界面

1、 index.js

```
//index.js
//获取应用实例
const app = getApp()
Page({
  data: {
    image: '/pages/image/111.jpg', //背景图片
    username: '',
    password: '',
    authorid: ''
  },
  bindusername: function(e) {
```

```

        console.log(e.detail.value)
this.setData({
    username: e.detail.value
})
},
bindpassword: function(e) {
    console.log(e.detail.value)
this.setData({
    password: e.detail.value
})
},
clicktoreg: function() {
wx.request({
    url: 'http://172.22.130.33/index.php/Ajaxapi/Ajaxapi/reg/username/' +
this.data.username + '/password/' + this.data.password,
    success: function(res) {
        console.log(res.data)
if (res.data.info == 1) {
wx.navigateTo({
    url: '/pages/denglu/denglu',
    })
    }
    }
})
},

```

2、index.wxml

```

<!--index.wxml-->
<viewclass='ServiceCenter'>
<viewclass="weui-cells__title">用户名</view>
<view>
<inputstyle="border:1px solid red"class="weui-
input"maxlength="10"bindinput="bindusername"/>
</view>
<viewclass="weui-cells__title">密码</view>
<view>
<inputpassword="true"style="border:1px solid red"class="weui-
input"maxlength="10"bindinput="bindpassword"/>
</view>
<buttontype="default"bindtap="clicktoreg">注册</button>
</view>

```

3、index.wxss

```

/**index.wxss*/
.userinfo {
display: flex;

```

[illegible]

注册界面如下:

第二部分：登陆界面

1、denglu.js

```
// pages/denglu/denglu.js
Page({

  /**
   * 页面的初始数据
   */
  data: {
    image: '/pages/image/222.jpg', //背景图片
    username: '',
    password: '',
    authorid: ''
  },
  bindusername: function(e) {
    console.log(e.detail.value)
    this.setData({
      username: e.detail.value
    })
  },
  bindpassword: function(e) {
```

```

        console.log(e.detail.value)
        this.setData({
            password: e.detail.value
        })
    },
    clicktoreg: function() {
        wx.request({
            url: 'http://172.22.130.33/index.php/Ajaxapi/Ajaxapi/login/username/' +
this.data.username + '/password/' + this.data.password,
            success: function(res) {
                console.log(res.data)
                if (res.data.info == 1) {
                    wx.navigateTo({
                        url: '/pages/riji/riji',
                    })
                }
                else{
                    wx.showToast({
                        title: '您的用户名或密码输入错误请重新输入',
                        duration:10000,
                        success:function(){
                            wx.navigateTo({
                                url: '/pages/denglu/denglu',
                            })
                        }
                    })
                }
            }
        })
    }
}

```

2、denglu.wxml

```

<!--pages/denglu/denglu.wxml-->
<view class='ServiceCenter'>
    <view class="weui-cells__title">用户名</view>
    <view>
        <input style="border:1px solid red" class="weui-input" maxlength="10"
bindinput="bindusername" />
    </view>
    <view class="weui-cells__title">密码</view>
    <view>
        <input password="true" style="border:1px solid red" class="weui-input"
maxlength="10" bindinput="bindpassword" />
    </view>
    <button type="default" bindtap="clicktoreg" > 登录</button>

```

登陆界面如下:

第三部分：日记界面

1、riji.js

```
// pages/riji/riji.js
Page({
  data: {
    image: '/pages/image/222.jpg',//背景图片
  },
  newBtnDown() {
    wx.navigateTo({
      url: '/pages/write/write',
    })
  },
  newBtnDown2() {
    wx.navigateTo({
      url: '/pages/read/read',
    })
  }
})
```

2、riji.wxml

```
<!--pages/riji/riji.wxml-->
<!--背景-->
<image class="des-image" src="{{image}}"></image>
<!--添加按钮-->
<button bindtap="newBtnDown">写日记</button>
<button bindtap="newBtnDown2">查看日记</button>
```

3、riji.wxss

```
/* pages/riji/riji.wxss */
```

```
page{
  height: 100%;
}
```

```
.des-image{
  position: absolute;
  width: 100%;
  height: 100%;
}
```

```
.des-scr{
  width: 100%;
  height: 100%;
}
```

```
.des-view{
  margin: 5%;
  width: 90%;
  height: 180rpx;
  border: 1px solid orange;
}
```

```
.des-text{
  display: block;
  margin: 20rpx;
  height: 80rpx;
  overflow: hidden;
}
```

```
.des-tiemText{
  display: block;
  margin-right: 20rpx;
  margin-bottom: 20rpx;
  height: 40rpx;
  text-align: right;
}
```

```
.new-btn{
  position:absolute;
  bottom: 200rpx;
  right: 0rpx;
  width: 80rpx;
  height: 80rpx;
  background: darkorange;
  border-radius: 50%;
  font-size: 48rpx;
  line-height:80rpx;
}
```

日记界面如下：

第四部分：写日记界面

```
// pages/write/write.js
```

```

Page({

  /**
   * 页面的初始数据
   */
  data: {
    authorid: '',
    nr: '',
    xq: ''
  },
  bindauthorid: function(e) {
    console.log(e.detail.value)
    this.setData({
      authorid: e.detail.value
    })
  },
  bindnr: function(e) {
    console.log(e.detail.value)
    this.setData({
      nr: e.detail.value
    })
  },
  bindxq: function(e) {
    console.log(e.detail.value)
    this.setData({
      xq: e.detail.value
    })
  },
  newBtnDown() {
    wx.request({
      url: 'http://172.22.130.33/index.php/Ajaxapi/Ajaxapi/write/authorid/' +
this.data.authorid + '/nr/' + this.data.nr + '/xq/' + this.data.xq,
      success: function(res) {
        console.log(res.data)
        if (res.data.info == 1) {
          wx.navigateTo({
            url: '/pages/riji/riji',
          })
        }
      }
    })
  }
})
}

```

```

<!--pages/write/write.wxml-->
<view class='ServiceCenter'>
  <view class='item'>
    <text class="left">作者</text>
    <input style="border:1px solid red" class="weui-input" maxlength="10"
bindinput="bindauthorid" />
  </view>
  <view class='item'>
    <text class="left">心情</text>
    <input style="border:1px solid red" class="weui-input" maxlength="10"
bindinput="bindxq" />
  </view>
  <view class="contentView">
    <view class="textarea_title">内容</view>
    <view class="textarea_bg">
      <textarea bindinput="bindnr" style="height: 4em" maxlength="-1" />
    </view>
  </view>
  <button bindtap="newBtnDown">保存</button>
</view>

/* pages/write/write.wxss */

.item{
  height: 70rpx;
  margin: 20rpx;
  display: flex;
  border-radius: 20rpx;
}
.left{
  display: flex;
  justify-content:flex-start;
  flex-grow: 1;
}
.contentView{
  width: 100%;
  margin-top: 40rpx;
}
.textarea_title{
  margin-left: 20rpx;
  color: rgb(22, 21, 21)
}

```

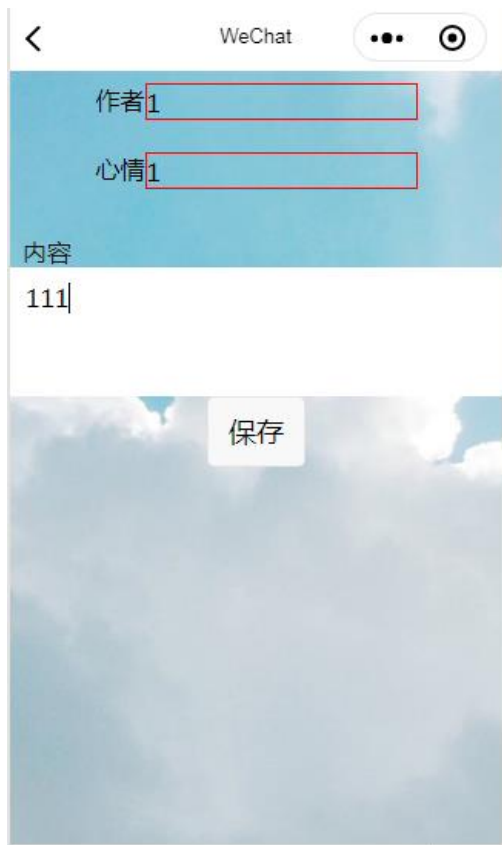

```

.textarea_bg{
  padding: 0 25rpx;
  background-color: #fff;
}
textarea{
  width: 700rpx;
  padding: 25rpx 0;
}

.ServiceCenter{
  display: flex;
  flex-direction: column;
  align-items: center;
  width: 100%;
  height: 1200rpx;
  background-repeat:no-repeat; /** 不重复*/
  background-size:cover; /**等比例缩放*/
  background-image: url(data:image/jpeg;
base64,
/9j/4AAQSkZJRgABAQEASABIAAD/2wBDAAUDBAQEAwUEBAQ

Ruh6fw7TtISR1ainqacko1S0MRVlww1RCFOki0

```

写日记界面如下：

第五部分：读日记界面

```
// pages/read/read.js
Page({

  /**
   * 页面的初始数据
   */
  data: {
    authorid: '',
    searchstr: '',
    rj: '',

  },
  bindauthorid: function(e) {
    console.log(e.detail.value)
    this.setData({
      authorid: e.detail.value
    })
  },
  bindsearchstr: function(e) {
```

```

        console.log(e.detail.value)
        this.setData({
            searchstr: e.detail.value
        })
    },
    newBtnDown() {
        var that = this
        wx.request({
            url: 'http://172.22.130.33/index.php/Ajaxapi/Ajaxapi/read/authorid/' +
this.data.authorid + '/searchstr/' + this.data.searchstr,
            success: function(res) {
                console.log(res.data)
                if (res.data.info != 1) {
                    wx.showToast({
                        title: '未找到日记',
                        duration: 10000,
                        success: function() {
                            wx.navigateTo({
                                url: '/pages/read/read',
                            })
                        }
                    })
                } else {
                    that.setData({
                        rj: res.data.data
                    })
                }
            }
        })
    }
}

```

```

<!--pages/read/read.wxml-->
<view class='ServiceCenter'>
    <view class='item'>
        <text class="left">作者</text>
        <input style="border:1px solid red" class="weui-input" maxlength="10"
